Chemical Explosion on Bogoso Road

Thursday, 20th January 2022| Accra, Ghana: The Ghana Chamber of Mines has received with deep sorrow the accident leading to the chemical explosion at Apiate, near Bogoso road that led to the loss of lives and destruction of properties. "We offer our deepest condolences to the families of the deceased and assure them of our support during this difficult period. The immediate priority is to provide relief to the families of the deceased as well as cater for the needs of the injured and the people in the community", says Mr. Eric Asubonteng, President of the mining Chamber.

We commend the Ghana Police Service, the Ghana National Fire Service, NADMO, Minerals Commission, and mining companies for the timely intervention in the matter. We continue to collaborate with these organisations in the search and rescue efforts. "We should make every effort to prevent such unfortunate accidents in the future." Says Mr. Sulemanu Koney, CEO of the Chamber of Mines.
