The workshop sought to bring together supply chain professionals in the mining firms and mine support service companies in the industry’s value chain.

Additionally, all relevant stakeholders in trade, industry, regulators, and other parastatals joined this year’s event to contribute to its success. The Ghana Chamber of Mines advocated for alignment of policy between the Ministry of Lands and Natural Resources and the Ministry of Trade and Industry.

Speaking at the opening session of the workshop, CEO of the Chamber of Mines, Dr. Sulemanu Koney said “For us to realise this, we need effective partnerships and collaborations at all levels of decision making.

In this regard I am pleased with the level of collaboration we continue to receive from the Minerals Commission and AGI. “What is missing and requires some look into, is policy alignment between our sector ministry, the Ministry of Lands and Natural Resources and Ministry of Trade and Industry”
